

RIDE ON

(L&M: Sir Marlowe)

You're a man who never finished his action
Now you're frustrated, feel like a loser
Had left a lake of tears and destruction
Walk on now, do what you think you've to do

Much to do, you know it's on your own
Never rest, it must be shown
Take your chance, take it right now
A look in the future shows you why

Ride on, ride on
Wheel of fortune, it takes you away
Take the road, longing for the key
Get the power, having fun

Once you met a girl, you thought she's the one
Than you agreed with dark demons fun
At last a victim, that was your fate
You've learned to love and not to hate

The same old game, the same old rules
Never ending problems, never ending
Take your chance, take it right now
A look in the future shows you why

Ride on, ride on
Wheel of fortune, it takes you away
Take the road, longing for the key
Get the power, having fun

The same old game, the same old rules
Never ending problems, never ending -

Ride on, ride on
Wheel of fortune, it takes you away
Take the road, longing for the key
Get the power, having fun
