

## STEP ASIDE

(L&M: Uli `Gibson` Hoffmann)

Tonight`s the night, that we walk on a wire  
Tonight`s the night, we play with fire

We are two of a kind, crazy, but in love  
Who formed the rules, perhaps somebody above  
We know how to play the game  
We are flying high again, and again, once again

We are flying on the wings of an angel  
We are one, in the speed of the light  
High above of the ground, all the problems so far  
Let`s go on, see the world step aside

Tonight`s the night, we turn the wheel of fortune  
Gain the victory, life ain`t no sin  
We know how to play the game  
We are flying high again, and again, once again

We are flying on the wings of an angel  
We are one, in the speed of the light  
High above of the ground, all the problems so far  
Let`s go on, see the world step aside

You know nothing last forever, you know nothing is for free  
But tonight we`ve got the power, so come on, let us gonna see

We are flying on the wings of an angel  
We are one, in the speed of the light  
High above of the ground, all the problems so far  
Let`s go on, see the world step aside  
Let`s go on, see the world step aside  
Let`s go on, see the world step aside
